Go Flight Plan

100LL Jet A

Show All DROTAMs

Show DROTAMs over 200ft AGL

Hide DROTAMs

What are DROTAMs?

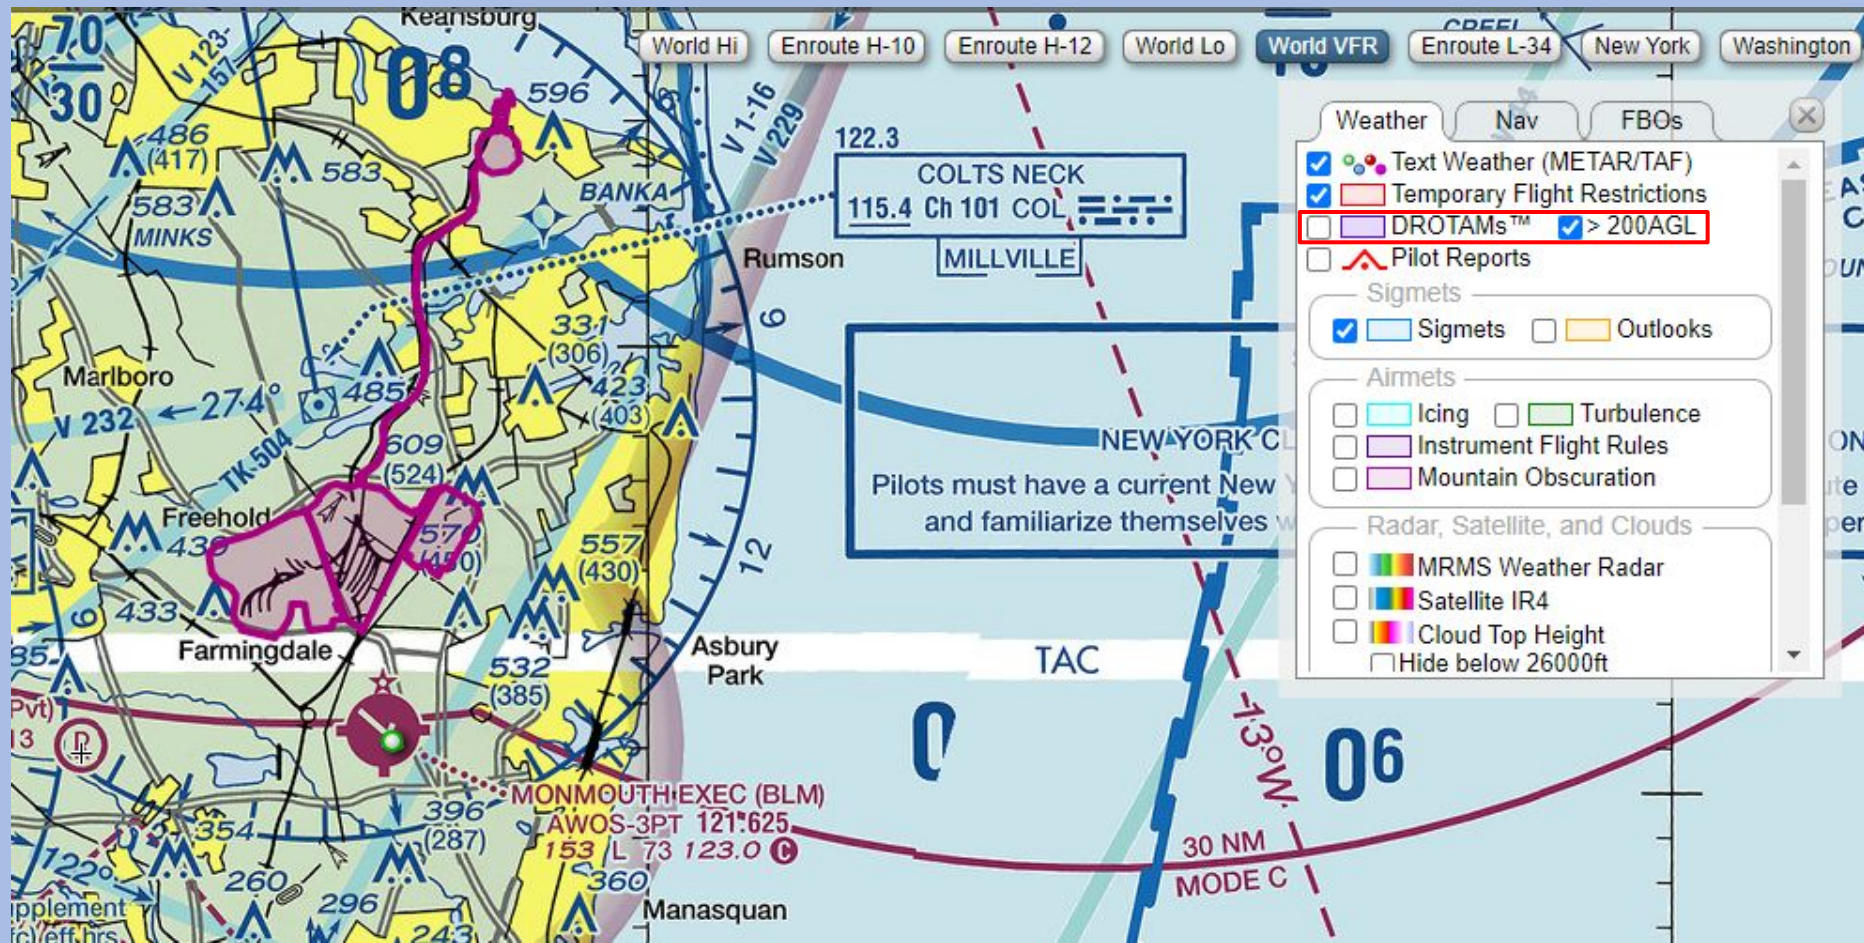

DROTAMs™ are what SkyVector calls "Drone NOTAMs", or Notices to Airmen defining unmanned aerial systems operating areas (UAS OA).

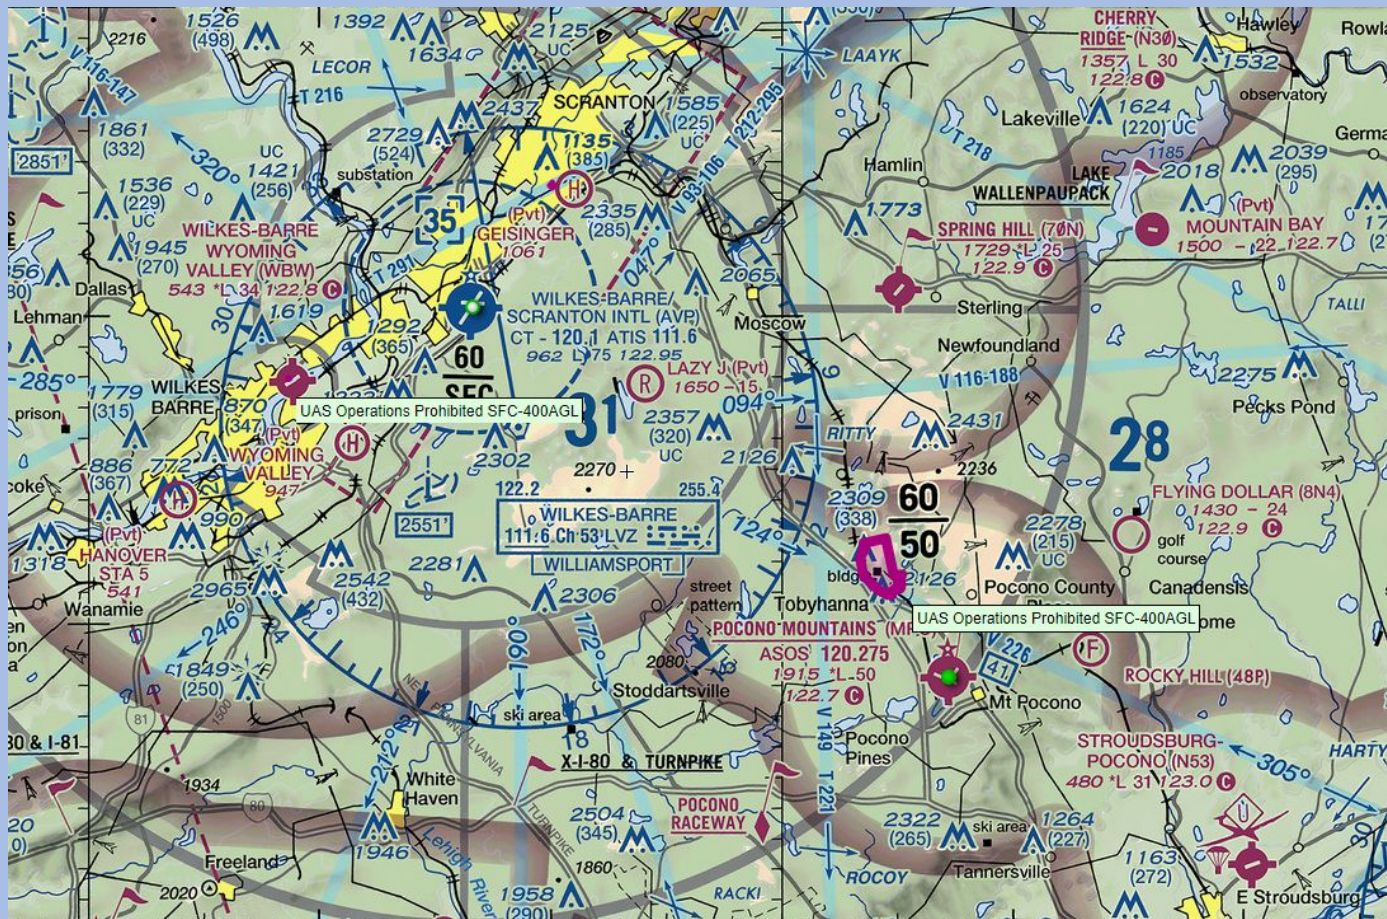

The U.S. Air Force, Customs and Border Protection Agency, public operators with a Certificate of Authorization (COA), or private commercial operators granted a Section 333 exemption may issue NOTAMs to advise pilots of their activities.

Unmanned Aircraft Systems (UAS)

i PART 107 UPDATE: The FAA has published a [Special Federal Aviation Regulation \(SFAR\)](#) on how Part 107 certified pilots can establish currency while testing centers are closed due to COVID-19 response. Read the [Frequently Asked Questions \(PDF\)](#).

Whether you're a new drone pilot or have years of experience, rules and safety tips exist to help you fly safely in the national airspace. To get started, be sure to select which type of drone user you are and find out what rules and regulations apply to your specific situation. You can then begin researching where it is safe to fly and when you need approval to fly.

What type of drone flyer are you?

**Recreational Flyers and Modeler
Community-Based Organizations**

**Certificated Remote Pilots including
Commercial Operators**
